Washington, DC 20554

Dear The Federal Communications Commission,

To whom it may concern

I hear off phone companies paying millions to run phone cable to a few back woods places, they will never recoup that money and the rest of us are left picking up the slack with taxes such as the one that is proposed. It would have been cheaper to buy them all cell phones and payed the bill then to install the cable. This is crazy and I dont want you raising my tax to pay for such stupid endeavors.

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Sincerely,

Tom Cook
